

Sales Dashboard Documentation

This document serves as a reference for the components, DAX measures, and visualizations used in the created Sales Dashboard.

1. DAX Measures

Measure Name	DAX Formula
Total Revenue	<code>SUM('DATA CLEANING' [TotalPrice])</code>
Total Orders	<code>DISTINCTCOUNT('DATA CLEANING' [TrackingNumber])</code>
Total Items Sold	<code>SUM('DATA CLEANING' [ItemsInCart])</code>
Avg Order Value	<code>AVERAGE('DATA CLEANING' [TotalPrice])</code>

2. Visualizations

- **KPI Cards:** Displaying (Total Revenue, Coupon Usage Rate, Avg Items per Cart, Total Items Sold).
- **Line Chart:** "Average Order Value by Quarter" to analyze order value trends.
- **Clustered Column Chart:** "Revenue by Acquisition Channel" for analyzing revenue by source.
- **Clustered Bar Chart:** "Product Sales Ranking" to analyze product performance.
- **Donut Chart:** "Operational Status Overview" to analyze the distribution of order statuses.

3. Slicers

- **Referral Source:** Filter data by acquisition channel.
- **Payment Method:** Filter data by payment method.
- **Year:** Filter data by fiscal year.
